COLOR

Color can hold an immense amount of power over us. Here we outline exactly how color should be applied in all communications, both digitally and in print.

There are five colors that represent all NCS Credit services. **Gold** represents Education and Resources; **Orange** represents our Collection Services; **Green** represents Notice and Mechanic's Lien Services; **Blue** represents UCC Services, and **Purple** represents Lien Finder. **Dark blue** (appears almost Charcoal Grey) is used as a secondary color. Black can be used for contrast and depth.

These are the brand colors that should be used for any NCS Credit print and digital applications.
